## THE CIVIC FEDERATION

### An Important Meeting of Progressive Citizens.

The quarterly meeting of the executive committee of the Civic Federation was held at the office of Castle & Withington yesterday afternoon at 4 o'clock. Perley L. Horne was appointed temporary secretary during the absence of Ed Towse. It being in order for the several committees to report as required by the constitution, the first report made was that of the Committee on Finance and Membership. The total membership appears to be 119. The funds received were, of course, from membership fees of \$1 each, and bills paid, amounting to \$40.50, gave a balance of cash on hand of \$78.50. The report was accepted and the committee was instructed to report to the executive committee any additional names proposed of whom there are now a considerable number, in order that they might be passed upon. In fact, since the recent county campaign, an unusual amount of interest seems to have been manifested in the Federation and applications are numerous.

## LAW AND ORDER.

The committee on Law and Order reported the final disposition of a number of matters in its hands, and that it had been assisted to a very marked degree by the consistent action of High Sheriff Henry in prosecuting offenders where pointed out by the Federation in its endeavor to regulate and suppress certain evils. This report was likewise accepted.

## PUBLIC PARKS.

The committee on Public Parks, etc., reported its action with reference to bills regarding parks which had been acted upon by the Legislature, and noted its disappointment in not getting the limits considered desirable for the Tantalus Park, and the importance it placed upon a definite character being given to and maintained by the so-called Aala Park which the Federation considers a most important adjunct to the public health.

Some action had also been taken by this committee with regard to the sign nuisance and it reported as undertaking measures at the present time in securing the removal of some of the very objectionable signs which meet the eye in some interesting public places. It reported that the Advertiser's position in this matter had been of assistance. After the acceptance of this report the committee was directed by motion to take active steps toward procuring an abatement of the sign nuisance, attention being drawn particularly to a large board fence in the banana garden at Waikiki.

## THE TANTALUS FOREST.

After the reading of this report a discussion arose as to the projected cutting of the forest on the Coney estate, through which the Tantalus road passes. Various propositions were made as to securing the co-operation of the Coney family in the measures which

## MOTHERS

should know. The troubles with multitudes of girls is a want of proper nourishment and enough of it. Now-a-days they call this condition by the learned name of Anemia. But words change no facts. There are thousands of girls of this kind anywhere between childhood and young ladyhood. Disease finds most of its victims among them. Some of them are passing through the mysterious changes which lead up to maturity and need especial watchfulness and care. Alas, how many break down at this critical period; the story of such losses is the saddest in the history of home. The proper treatment might have saved most of these household treasures, if the mothers had only known of **WAMPOLE'S PREPARATION** and given it to their daughters, they would have grown to be strong and healthy women. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. In building up pale, puny, emaciated children, particularly those troubled with Anemia, Scrofula, Rickets, and Bone and Blood diseases, nothing equals it; its tonic qualities are of the highest order. A Medical Institution says: "We have used your preparation in treating children for coughs, colds and inflammation; its application has never failed us in any case, even the most aggravated bordering on pneumonia." The more it is used the less will be the ravages of disease from infancy to old age. It is both a food and a medicine—modern, scientific, effective from the first dose, and never deceives or disappoints. "There is no doubt about it." Sold by all chemists here and throughout the world.

will retain the forest, and at the same time do justice to the family which has to pay taxes on the land.

## TO AID TEACHERS.

Neither the committee on Legislation nor on Public Health was prepared with its report, and the matter was passed on to the next meeting. The committee on Health and Education reported the adoption some time since of a resolution with regard to the salaries of teachers, and after some discussion it was decided to present the matter to the Superintendent of Public Education. The resolution reads as follows:

Whereas, financial exigencies in the past year have brought a reduction in the salaries of the public school teachers of the Territory of Hawaii; and

Whereas, this reduction has compelled valuable teachers to resign and brought on uncertainty and unrest to all who remain; and

Whereas, our teachers are paid less than employees of equal ability in other professions and lines of business; and Whereas, the present Legislature has not brought relief to the teachers; and Whereas, the future welfare of the Territory depends upon the training of our youth in our public schools, therefore,

## FEDERATION'S POSITION.

With regard to the recent election the chairman said he felt it important that the real position of the Civic Federation should be known, and a memorandum entered in the records, towards the following communication of the committee, which, after some discussion, was ordered placed on file and the secretary directed to cause its publication.

To the Executive Committee of the Civic Federation.

Gentlemen: As there seems to have been some misunderstanding on the part of the public with regard to the position taken by the Civic Federation, or rather its Executive Committee, during the recent political campaign, I consider it desirable to place before you to be filed with the records, the following explanation and report.

In the performance of its duties the Executive Committee, as soon as possible after the two political parties in Honolulu had made nominations, met and passed resolutions of endorsement or failure to endorse candidates nominated, all of which appears on our records.

On account of the fact that neither candidate for the office of County Sheriff could be endorsed, it became necessary to take some steps, and the Civic Federation at a meeting duly called and held in the Y. M. C. A. rooms in Honolulu directed the Executive Committee to take such steps as to it might seem best. At a meeting of this Committee called immediately, the matter was discussed, and it appearing that Mr. William Henry, the present High Sheriff, was to be nominated by some of his friends in accordance with the law requiring a nomination to be filed containing the signatures of not less than twenty-five voters, the Committee thereupon endorsed this nomination. At the same time it endorsed the nomination of Mr. Fern for the office of Supervisor to run against J. C. Quinn, who had been specifically refused endorsement. At a subsequent meeting, at which I was not present, the entire matter of contributing such might be expected to contribute in the way of literature or otherwise, was placed in the hands of a special committee, to act in concert with, or in such other manner as it might deem best to assist Mr. William Henry. The entire conduct of the campaign being in the hands of Mr. Henry and his friends, the committee in fact took no very active part in the canvass, confining itself chiefly to advice, and some personal effort on the part of its members, as citizens. The course indicated by this action of the full committee has been distinctly and carefully followed by your Executive Committee in every respect. There was no interference with or direction of the campaign by any of its officers, as members of this committee or representing the Federation, nor has its Executive Committee or any of its officers incurred any financial obligations with regard to the election, excepting one small printing bill for a matter which was directed by the Executive Committee.

This explanation and report is not made with the idea that it is in any sense improper for a Civic Federation to take an active hand in politics if such action should be deemed necessary at any time, but simply for the purpose of placing the committee right before the Federation and citizens. In general, as to the recent very active campaign, for the above statement represents the actual state of the case.

Very respectfully submitted,

W. R. CASTLE,

President.

LORRIN ANDREWS'S CASE.

The subject of membership of the Federation and of the executive committee again arose. It appeared that one or two resignations have been placed in the hands of the secretary and final action had not been taken. The resignation of Lorrin Andrews was thereupon lifted from the table and after considerable discussion it was accepted, not upon the grounds that appeared in Mr. Andrews's letter of resignation, which were that the Federation had not done right in the stand it had taken in political nominations, but upon the ground that Mr. Andrews's conduct in appearing to withdraw from the Republican committee, while, in fact, he had not done so, was inconsistent with his duty as a member of the Civic Federation.

There being no further business, the meeting then adjourned.

Attorney General Andrews will approve the appointments of officers appointed by the sheriff of Oahu, pro forma, in accordance with what is taken to be the right interpretation of the County Act, which would place policemen on this island on a different footing from those on the other islands in that regard.

## ATKINSON IS CONCILIATORY

### Presents Friendly Mien Toward County Officials.

Acting Governor Atkinson has fashioned the fine piece of Rooseveltian slang—about leaving Taft in Washington to "sit on the lid"—into a practical joke of a physically comforting kind. He has procured a grass mat for the executive chair in the robin's-egg blue room, on the reverse side of which the legend, "The Lid," is inscribed.

What is better still, the Acting Governor is putting the jest to a serious purpose. According to the following statement he made yesterday, he is sitting on the lid of the "teapot" in which a "tempest" had begun to brew relative to the transition to county government.

"I have given the matter of the transfer of property to the counties a great deal of thought," Acting Governor Atkinson said to the Advertiser representative yesterday afternoon, "and have decided that where the Legislature has given or assigned duties to the Governor or Territorial officers, and has later given the same duties to others, I am going to see that the implements and facilities for accomplishing these duties shall be given to such others—namely, the county officials."

"I think that it is the right thing to do, although I have no precedent. Texas, California and other former territories, whose histories have been examined, were organized with counties. We have therefore to establish a rule for ourselves, and a good rule must be one that is fair, practicable and workable."

"This rule I propose is fair, practicable and workable. The details I have not yet worked out. There are some of them that will overlap. There are some of the government working tools which can be used by the former officers who have been using them and also by the county officers."

"I propose wherever possible to turn over to the representatives elected by the people the implements they require, and then the Territorial officers can get the use of them when needed. In this policy we will no doubt run up against a great many snags. I intend to be fair and courteous with the county officials, and I expect to receive fair and courteous treatment from them."

"I believe the gentlemen comprising the county government are as loyal to the Territory as we propose to be to the county. I feel it a duty and I am going to see that the ship of county government is properly launched, and I shall help all I can at such proper launching."

"I have conferred with Mr. Justice Wilder concerning the mode by which the property shall be turned over. Regarding the mode itself, of course, I cannot now speak."

While the reporter was still present a request came to the Acting Governor from Chairman Smith of the Board of Supervisors of Oahu county, that he at-

tend a meeting of that body at 7:30 the same evening. Although having a prior engagement for the evening, Mr. Atkinson did not hesitate long in replying that he would be present. Thus early did he prove the sincerity of his resolve to be fair and courteous to the county squires.

### KANEALII CERTIFIED BUT TROUBLE COMING

"I decided today to issue to Kanealii his certificate of election as a supervisor of the county of Kauai," Mr. Atkinson as Secretary of Hawaii said yesterday.

He explained that the case of Dreier vs. Cooper seemed to make it clear that, since Kanealii's name was on the official ballot and he had been elected, there was nothing left to the Secretary

but the ministerial duty of issuing the certificate of election.

Nevertheless, Kanealii is not out of trouble. As was stated in Monday's Advertiser would be done, quo warranto proceedings will be brought forthwith in the Fifth Judicial Circuit to prevent Kanealii from sitting on the Board of Supervisors. This contest of his election will be on the ground of fraud in his nomination papers.

Not only that, but the alleged forgery of signatures to Kanealii's nomination will be presented to the Kaula grand jury next week. Wireless information has been received to the effect that the affidavits alleging forgery of signatures have been examined and found authentic.

Tropic Fruit Company's selected pineapples, to any Express Office in the United States. Leave orders with B. O. Clark, Wahiawa, or F. C. Enos, at Wells, Fargo Express Office.

## J. HOPP & CO.

A LOT OF

## NEW THINGS

**OLD HICKORY**—Something new, odd, and dainty—decidedly artistic—in the way of porch and lawn furniture. Can be left out in all kinds of weather. It is a line of fashionable rustic furniture. It is made only of hickory, the strongest of American native woods, the bottoms and backs being plaited by hand and being of very strong inner hickory bark. For a den or lanai or even for your lawn there is nothing more odd than this.

**NEW WEATHERED OAK SET**—By the "Sonoma" we received a fine weathered oak dining-room set, consisting of a table, an odd buffet, a leaded glass china cabinet, two arm chairs, and eight regular dining chairs, these latter having green leather seats, which go well with the dark color of the oak.

We also received a very handsome golden quartered oak sideboard and a china cabinet—about as good as can be made in any furniture factory.

**RUGS**—New lot of all sizes of rugs, including fine Wilton's of all sizes.

**WICKER CHAIRS And ROCKERS**—A lot of cheap wicker work in the way of chairs and rockers is disposed of every year in Honolulu. Some of it lasts for a couple of months and some as long as a year, but the best on the market—that advertised in all the magazines—and the best of American make, made in American factories from the best Ceylon rattan, will last for years. We have a new lot of the American goods in chairs and rockers, of all patterns, shapes and sizes and at reasonable prices.

AND EVERYTHING ELSE NEEDED IN ANY CLASS OF HOUSE FURNISHING.
